

# PRASHANT KHADKA / UX/UI DESIGNER

saymepras@gmail.com

+358-451638554

Tampere, Finland

## ABOUT PRASHANT

I'm a Product Designer who thrives on simplicity, turning complex problems into clear, user-centered solutions. I focus on understanding what users truly want and need, and I enjoy creating intuitive designs that are both functional and delightful.

Driven by a passion for clarity, I approach every project with a problem-solving mindset and a commitment to crafting meaningful user experiences. My goal is to design products that resonate with users and leave a lasting impact.

## WORK EXPERIENCE

### Freelance Product Designer

Oct. 2022 - Present | Finland (Remote & On-site)

- Led design for e-commerce platforms, websites, and apps, making them easy and clear for users.
- Worked with clients and teams to shape brand identity, improve user journeys, and learn AI for design research.
- Managed and guided design teams, creating practical, user-centered solutions that help business goals and engagement.

### Creative Head / Product Designer

Dec. 2018 - Sept. 2022 | KTM Labs Pvt Ltd, Kathmandu, Nepal

- Led design and project work for digital and e-commerce platforms, focusing on simple, clear, and user-friendly product pages, checkout flows, and order management systems.
- Worked closely with cross-functional teams from concept to launch, using Figma, Next.js, and WordPress.
- Guided a design team in creating responsive, high-quality interfaces that support both user satisfaction and business goals.
- Focused on improving user journeys, conversion, and engagement, while keeping solutions practical and sustainable.

### UI/UX Designer and Frontend Developer

Apr. 2017 - Nov. 2018 | Billfolda Australia, Sydney (Remote)

- Designed and developed user interfaces for a crowdfunding platform, optimizing user flows and payment experiences.
- Created a drag-and-drop module to enhance usability for clients.
- Collaborated with cross-functional teams to meet user needs and business goals.
- Contributed to platform scaling on AWS for improved performance.

### UI/UX Developer

Jan. 2016 - Mar. 2017 | Radiant Infotech Pvt Ltd, Kathmandu, Nepal

- Led design for e-commerce platforms, websites, and apps, creating clear, user-friendly experiences.
- Collaborated with clients and teams to shape brand identity, optimize user journeys, and improve conversion.
- Managed design teams and developed interactive, scalable platforms with practical, user-centered solutions.
